Summary

B.Tech CSE 2027 student currently in final year with hands-on experience in Java, Spring Boot, and REST API development. Built production-ready full-stack applications including a live ride-sharing platform (sharefare.online) and a Library Management System with JWT authentication, role-based access control, JPA/Hibernate ORM, and MySQL. Strong foundation in OOP, Data Structures, and backend development with a consistent focus on writing clean, efficient, and well-documented code. HackerRank Java certified and Infosys Java Full Stack trained. Eager to contribute to scalable backend development at AutoRABIT.

Work Experience

Infosys Springboard | *Full Stack Java Developer Intern*

Feb 2026 - Apr 2026

- Built and deployed REST APIs using Java and Spring Boot, practising clean coding, modular design patterns, and version control with Git and GitHub.
- Implemented Core Java fundamentals (OOP, Collections, Exception Handling, JDBC) through hands-on labs and Java-based full-stack development projects.
- Strengthened debugging, unit testing, and code review skills while solving Java data-structure and algorithm challenges.
- Delivered all milestones on schedule by collaborating in a virtual team environment, consistently writing clean, well-documented, and maintainable code.

Projects

ShareFare – Ride Sharing Platform | [Github-ShareFare](#)

- Developed a full-stack ride-sharing platform using Java and Spring Boot, implementing REST APIs for ride search, booking, route management, and real-time ride status updates.
- Implemented user authentication and session management with role-based access control, securing all backend API endpoints.
- Designed and optimised MySQL database schema for users, rides, and bookings with proper relationships, foreign keys, and indexing.
- Deployed and hosted the application live at sharefare.online, demonstrating end-to-end ownership from development to production.
- Practised OOP design patterns, clean code principles, and Git-based version control throughout development.

Library Management System | [Github-Librario](#)

- Built backend REST APIs using Spring Boot with JPA/Hibernate to handle books, members, membership plans, and penalty calculations.
- Set up JWT-based login with role-based access for admin, librarian, and member - each role has its own permissions across all APIs.
- Designed the MySQL database with proper table relationships, foreign keys, and indexing to keep data clean and queries fast.
- Handled the full book issue and return flow including borrowing history, connected to a React.js frontend for easy catalog browsing.

Skills

- **Programming Languages:** Java (Core Java, OOP, Collections, Exception Handling, Multithreading), JavaScript, HTML, CSS
- **Frameworks & Libraries:** Spring Boot, JPA/Hibernate, React.js, Node.js
- **Backend & APIs:** REST APIs, Spring Framework, Spring Boot, Spring MVC, JDBC, Microservices (basics)
- **Database:** MySQL, PostgreSQL
- **Core Competencies:** Object-Oriented Programming, Data Structures & Algorithms, Analytical Thinking, Logical Reasoning, Problem Solving, Debugging, Clean Code
- **Tools & Version Control:** Git, GitHub, Postman, IntelliJ IDEA, VS Code

Education

MLR Institute of Technology

B.Tech, Computer Science & Engineering (GPA: 7.5)

Sep 2023 - May 2027

Hyderabad, Telangana

Loyola Academy Junior College

Intermediate, MPC: Physics, Chemistry, Mathematics (GPA: 93.2%)

Jun 2021 - Mar 2023

Hyderabad, Telangana

Resonance Info School, Khammam

SSC, History, Biology, Maths, English, Hindi (GPA: 10.0)

Jun 2019 - Mar 2021

Khammam, Telangana

Certifications

- HackerRank Java (Basic) Certification: Cleared the HackerRank Java skill test. Earned: Dec 2024 | ID: 6265795AACF0
- Java Full Stack Developer Certification – Achievers IT Institution: Completed a 6-month Java full stack program covering Core Java, Spring Boot, OOP, REST APIs, and hands-on project-based development. (achieversit.com)
- Full Stack Developer Intern Certificate – Infosys Springboard: Completed structured labs and projects focused on Java-based full-stack development and problem solving.
